Food allergies?
Disneyland®
Paris
has got you covered!

The central graphic is a large, stylized shape with a gradient from orange to red. It features white scrollwork and silhouettes of various Disney elements: a castle on the left, a character on the right, and a character with wings on the far left. There are also several small white stars scattered throughout the design.

This guide, written by a dietitian, is designed to provide you with all the information you need about the services available at our different restaurants, in order to facilitate your stay at Disneyland® Paris.

A wide variety of menu items available

The **special allergen-free meals by Natama** cover 16 food allergies and are guaranteed by our supplier.

The restaurants listed on page 5 offer **a choice of two starters, four main courses and three desserts**. The list of ingredients used is exhaustive (meaning that there are no “hidden” ingredients).
